## BRYAN LANDS IN NEW YORK

(By Associated Press.)  
NEW YORK, Aug. 30.—This is "Bryan Day" in New York, and, although the Nebraskan, who last night slept on a yacht in Gravesend Bay, will not again put his foot on his native soil until late this afternoon.

The many welcoming delegations in town were early astir putting the finishing touches on their several and varied programs. The weather signs were not propitious at the beginning of the day.

It was after 1 o'clock when Bryan returned on the yacht.

The Illini, on which Bryan spent the night, anchored off Stapleton, Staten Island, early today. After a brief stop the yacht proceeded up the harbor, off the Battery at 11:30.

Scores of workmen are in Madison Square Garden today, arranging the seats and decorations so as to have everything in readiness for the Bryan reception tonight. A tremendous crowd is expected and elaborate police arrangements for handling the people are being made.

The crowds of visitors from various sections of the country were largely augmented this morning. Every train arriving brought scores of men who wished to take part in the celebration. Among the visitors Westerners seem to be in the majority. The Broadway hotels are filled with them. The blocks from 23rd to 42nd street were filled all day with typical men from the West waiting for Mr. Bryan to come ashore.

The Illini went to Lewis Nixon's house boat which anchored off the Ocean Yacht Club pier at Stapleton, and Bryan boarded a boat. One of the early callers on Bryan was Mayor Tom Johnson, of Cleveland. Bryan goes aboard the Illini again this afternoon for luncheon. At 3 o'clock the yacht started for the Battery and landed Bryan at 4:00. After Bryan left the Illini the yacht steamed up North river. Mrs. Bryan landed and went to the Victor hotel to await Bryan's arrival this afternoon.

With the landing of Bryan at the pier this afternoon the official reception begins. There Bryan was met by a sub-committee headed by the chairman of the reception committee, Governor Folk, of Missouri. Acting Mayor McGovern extended a welcome on behalf of the City of New York.

Bryan then started on a short drive through the city and an informal reception in the parlors of the hotel was held after Bryan's arrival.

Bryan will be driven to Madison Square Garden soon after eight o'clock.

## 20 DOLLARS ONLY FOR MILEAGE BOOKS

D. B. Martin, general manager passenger traffic of the B. & O. railroad, has announced that, beginning Sept. 1, 1,000-mile tickets will be sold at a flat rate of \$20. The tickets may be used over the B. & O., east of the Ohio river, part of the Reading, Central of New Jersey and a portion of the Lehigh Valley.

This was brought about by the action of the Pennsylvania, announced several weeks ago. Its 1,000-mile tickets will be sold at the same rate and will be good over all lines east of Pittsburgh.

The Western Maryland has announced that the tickets sold heretofore, non-transferable and good for one year only, will after Sept. 1 be good for two years and transferable.

## GAS DEAL MADE

A deal has been consummated in Cincinnati which not only means much to that city, but is of considerable interest in some sections of West Virginia. The deal was the securing of a lease by the Union Gas and Electric Company of the property, franchise, rights, etc., of the Cincinnati Gas and Electric Company and it means that about 100,000 acres of partially developed gas territory in Calhoun and Roane counties will be fully developed and its output piped to the Queen City for use in the factories and homes of that city. Included in this property are the producing wells and leases of the Stumptown Oil and Gas Company composed of Parkersburg people, for which they will receive a nice sum from the new Cincinnati company.

## GYPSY DANCES AT BIG CIRCUS

Among the special attractions announced for the Barnum & Bailey circus when it exhibits in this city Sept. 14, is a troupe of eight men and women artists from Scandinavia, who are known as "The Gitanas." The entertainment is described as being of a wonderfully versatile character. A review of these clever people says:

"Dressed in their picturesque National or Gypsy costumes, this interesting troupe produces the sweetest melodies imaginable from all sorts of instruments, interspersing their musical exploits with sweet songs and charming dances. Among the article used to produce harmonies are glasses, bottles and even such queer things as nails. They perform most cleverly and artistically upon mandolins, xylophones, horns, violins, guitars, flutes and piccolos. Incidental to the music extracted from these curious instruments the clever troupe introduce their national songs in solos, duets and quartettes with the singular and exquisite blending of strange forest-horns, finally supplementing their most remarkable series of exploits with an absorbingly interesting exhibition of the many dances in vogue with the peasants of Sweden, Norway, Hungary and England, and those of the gypsy tribes of many continental countries."

In the same department may also be seen the troupe of Lilliputians, and artists, who are the smallest people ever born, two of them not more than twenty-four inches tall.

One can hardly realize their microscopic proportions. Beside them is the commanding figure of the Welsh giant and the Finnish giants. Truly a study of contrasts. The smallest horse in the world, a herd of giraffes, three herds of elephants, droves of camels, cages of wild beasts, sacred animals and many other curious objects are displayed at the same time and all are free to visitors. It is announced, "without extra charge."

It is evident that local visitors to the Barnum & Bailey circus will have no cause to complain of a lack of variety, especially as the management will make known for the first time here the new "Peace" spectacle and several thrillers of a most sensational character.

## HIPPLE DID KILL HIMSELF

(By Associated Press.)  
PHILADELPHIA, Aug. 30.—Coroner King, of Montgomery county, stated today that Frank K. Hipple, late president of the Real Estate Trust Company, who was found dead at his home in Bryn Mawr, Pa. last Friday, committed suicide.

Since the death of Hipple the family physician and coroner maintained he died from cerebral hemorrhage while taking a bath. The coroner today said:

"When it was discovered Hipple had committed suicide by shooting himself in a bath room it was decided to suppress the fact for a few days to prevent a run on the trust company. I thought if there was anything wrong in Hipple's transactions the directors would have a chance to make up whatever defects there were." He said this action was voluntary and no one made the request that the facts of the suicide was suppressed. There is much talk among certain financiers and other of the possibility of the rehabilitation of the company, but no feasible plan has come to light.

## SCHOOL BOARD MAKES SUGGESTION

Miss Helen Hall entertained informally a few of her friends at cards Wednesday afternoon. A dainty dish was served.

## SCHOOL OFFICERS AT INSTITUTE

An early meeting was called at 8:30 o'clock Thursday morning for the purpose of naming presidents and secretaries for the district institutes for the ensuing year. Supt. Ogden appointed the Telegram representative as recording secretary of the meeting.

The following officers were elected temporarily and at the first district institute permanent officers will be elected:

Coal and Clark—J. W. Duncan, president, and Miss Blanche Musser, secretary.

Clay—E. A. Allen, president, and Miss Estella Elliott, secretary.

Eagle—Thomas B. Martin, president, and E. G. Coffman, secretary.

Elk—J. C. Robinson, president, and Miss Eva Queen, secretary.

Grant—Floris Davisson, president, and Miss Cloe Hardway, secretary.

Simpson—C. E. Webb, president, and Miss Della Graves, secretary.

Tennille—W. T. Kemper, president, and Miss Eva Samples, secretary.

Union—A. J. Curry, president, and Mrs. Lina Lee, secretary.

The institute regular opened at 9:00 o'clock by singing No. 7 from the "Institute program," "All Hail the Power of Jesus' Name," followed by prayer by Rev. John Tankin, after which "Sweet and Low" was sung.

The roll was called and showed a considerable flock in attendance from that of the three former days. There were five ladies and 8 gentlemen absent, with the following new ones enrolled: Ira Swigg, of Rosebud, and John Lucas, of Shinnston, bringing up the total enrollment to 223.

After the roll call Dr. Call took up the seventh of his twelve lectures on ethics and public education, "The Ethics of Example." This lecture was classified into four parts: First, Value of experimental life; waste from ignoble ideals; importance of the idea behind the adventure of life.

Second, The doctrine of the solidarity of the race, its relation to each and to education.

Third, The problems involved in the ethics of example growing out of the race solidarity.

Fourth, Actions involved in the problems of example: subdivided, first, those of moral dignity in themselves, which is subdivided into three classes; and second, those of no moral dignity in themselves which was subdivided into two classes.

This was one of the most interesting lectures yet given by Dr. Call, especially that dwelling on habit and Sabbath desecration or that which is commonly termed as giving what he termed as exaggerated blue laws of New England he said he believed it all right to walk, row on the river, sail on the bay or even attend a presentation of Hamlet. "The theatre," he said, "has influenced the world for good longer than the pulpit." He then read an abstract from a letter written from a New England clergyman showing his attitude toward Sunday recreation and believed that human weakness drew the sexual line, etc. The speaker then referred to amusements which led to evil under, those of no moral dignity in themselves. These he classed as dancing, gambling of all sorts—whist parties are organs of inanity. He then discussed the ethics of the four "w's," the where, the why the when and the with whom.

At the close of the lecture Prof. U. S. Fleming, principal of Fairmont State Normal school, was introduced and made a short address on education.

So that to represent most of the districts in the county Supt. Ogden withdrew the former committee on resolutions and named another which met today at noon to draft resolutions. A number of teachers also met at the same time for the purpose of deciding on books for the teachers reading circle. Reports from both will be made Friday. The committee on resolutions is as follows: E. A. Allen, president; O. P. Thornberry, Florie Davisson, C. Wade Post, Estella Tiltott, Martha Tate, Catherine Shinn, Belle Leatherman and Margaret Flynn.

Miss Chase was introduced immediately after recess and gave one of her interesting lectures on the teaching and handling of little children in the home as well as the school room. During the course of her remarks Miss Chase called on Miss Mary Robinson to assist her in her lecture by telling how she handled children and taught them to read. Miss Robinson illustrated her method by using the word and picture story method and showed that by the word method 50 word lessons will teach an ordinary child to read.

This lecture was considered one of the best made by Miss Chase while here and the members of the board of education, most of whom were present, appeared to be much pleased with it.

The afternoon session found a large delegation present, owing to the fact that this was school officers day and the majority of the officers and members of their families were present. The members present were as follows:

Clay, Allison Robinson, president, Coal, R. F. Mason, president, H. J. Thompson and George Fromeyer, Clark, A. W. Fittro, pres., B. F. Southern and Sidney Kidd; Elk, J. B. Robinson, pres., J. Ira Jenkins and Theodore Radcliffe; Simpson, M. M. Jones, pres., J. E. Bartlett and J. W. Morris; Eagle, F. M. Robinson, pres., W. W. Hess and Ellis Fortney; Grant, Olandus West, pres., Henry Basil and J. M. McWhorter; Salem Independent, Thos. B. Pepper; Union, J. B. Cunningham, pres.; Bridgeport Independent, H. L. Deem, pres., A. D. Fitzhugh and A. J. Williams; West Milford Independent, Geo. W. Moffitt; Sardis, T. J. Parish, pres., Dr. E. N. Flowers, pres., Coal.

The institute opened by singing "Abide With Me," followed by Dr. Call introduced for the purpose of addressing the members of the board on "School Architecture and Sanitation." Dr. Call's ideal school building is high and dry, well drained and should face the southeast for lighting purposes, etc. The only substance for walls of a school building is vitrified tile since it is most easily kept clean and further the sanitation of drinking water should be looked after. He also talked to considerable extent on methods of heating and ventilating school buildings.

At the close of Dr. Call's address a short intermission was given after which Miss Chase gave one of her demonstrative lessons to the same class of children as yesterday. This lesson was equally if not more interesting than the one of yesterday.

Prof. S. B. Bond, of Salem College, was introduced and made a few remarks.

There will be a musical program tonight at 8 o'clock.

Dr. Thomas E. Hodges, of the West Virginia University, gave a most interesting and edifying lecture to the teachers of the institute Wednesday night on "Electricity," accompanied by stereopticon views. The house was well filled with teachers and the lecture was well received by them.

Dr. Hodges, who is a celebrated lecturer, took up the subject of "Electricity" from its first observation and technically and carefully carried it through to where it was first harnessed or confined to use and dwelt upon its application from invention to invention to the present time, in use as motive power, telegraph, telephone, heating, talking machine, execution, etc. He also showed it to be of inestimable value from a surgical or medicinal standpoint as the X-Ray. He gave to Thomas A. Edison the distinction of having accomplished more with electricity than any man that ever lived.

Enjoyable Dance

Wednesday night a very enjoyable dance was given for the members of the Ki Kappa Knu by Ralph Thorn and Clyde Wise. A chartered car was run continuously to and from the park. There were about thirty couples in all. Dancing was indulged in until twelve o'clock. The evening was cool which made dancing a pleasure. This was the first dance that this club has given for some time. However, in the near future they will be held more often. Messrs. Thorn and Wise deserve much credit in arranging such an enjoyable affair. Wells' orchestra as usual furnished fine music.

Special Meeting

The Ladies of the Macabees will have a special meeting tonight in their hall in the Traders building at 8 o'clock. Important business is to be transacted and the attendance of all members is urged.

The parents, who are respectable people, located the girl at Belington, and supposed she would be here now. Accordingly they sent the chief here to get her.

CHICKEN THIEF IS IN JAIL

Officers Rogers and Meritt started out Wednesday night armed with a search warrant to find one who had stolen a lot of clothes from a line at the home of James Hyde colored, at Point Comfort, which the late's wife had placed there as a washwoman. Instead they found an alleged chicken thief, and Louis Jones, colored, residing in Point Comfort, was arrested and jailed thus accused. The search warrant was by Justice Riley but the warrant on which he was arrested was by Justice John T. Flynn, of Wilsonburg.

Schrader's hounds from Glen Falls had been trailing one who stole chickens from a tree on Gregory's run. The dogs went to a store at Wilsonburg, where the thief had tried to sell the eight chickens stolen and later it was learned the thief had sold them to a foreigner at Wilsonburg for two dollars. The foreigner enlisted in the chase and identified Jones as the one who sold him the chickens.

When they searched Jones' house they failed to find any of the goods that were stolen from Hyde's clothes line, which consisted of 3 Buster Brown suits, 6 girls' dresses, 3 under gowns, 2 waist, 3 woman's skirts, 1 light waist, 2 suits of men's underwear, 1 blue dotted shirt, etc. Jones was supposed to be the clothes thief because he was said to have been seen Wednesday afternoon packing washed goods in a trunk.

The trial of Jones before Justice Flynn will be held at 10 o'clock tomorrow morning.
